<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	I feel that plans (such as building new houses on green belt) have been continuously planned and set into motion against a majority of people objection, with long bureaucratic processes set up in an attempt to bypass, ignore and deprive people's participation.
<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	If a majority say not to build on green spaces, please don't, there are vast amounts of spaces that are in ruin that can be transformed into a sustainable housing as well as being profitable environments. Leave green spaces alone, allow nature to take hold and for wildlife to thrive.

<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	List is far too short and clearly leaves out green belt and green environments. List must include more natural environments that are legally protected and environments that locals continuously fight to protect.

<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	The terminology "preference" to use brownbelt creates a loop hole and for those in power or those who seek to build new housing to use greenbelt when convenient. This is unacceptable and contradicts the notion of sustainable development.
<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	New developments, housing, transportation etc. should be exclusively built upon previously-used, vacant or run down environments, with green belt and spaces completely felt alone. Old mills, schools and waste ground etc. should be sustainably rejuvenated to support eco-friendly environments, supporting new buildings and environments that Manchester can be proud of and pave the way for the rest of the UK to follow.

<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	Policy should dictate waste and environmental damage is heavily penalised - directed to companies, the government and those who clearly disregard recycling practices. Everything that is bought within Manchester should be recyclable, and if not company's should be fined so to rectify. This will promote a green industrial revolution, with Manchester setting the way of eco-friendly life.
