Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	I live just behind the "proposed" land. When we bought this house we thought of it as our forever home. We have two young children who are allowed to play outside without any constant supervision as we consider this area safe. There"s no criminality and although there"s a private entrance road and cars already drive quite fast at times we still think this is an amazing and child safe area.
	Owning a dog the area gives us lots of opportunities to take her for walks.
as precise as possible.	Building new houses just behind my house would completely ruin everything mentioned above. Starting with criminality cars constantly driving up and down, our safety. The everyday traffic around Mort lane is already bad enough. This planet and our children need more trees and greenery for their future and not house on house feeling and breathing constant smoke from the cars around. By building more houses on to the places they don"t need to be built we ruin the fauna and flora. the animals have always been here before the humans so why to ruin the little peace of land around left?
