Please be as precise as possible.	<p>Already both sides of Mosley common have been built on with over 1000 houses. This work still not been completed. One side taking out a dairy farm where the trees and hedgerow have been ripped away and no greenery been left what so ever. Most families now have two to three cars per household therefore the congestion of traffic being horrendous now is going to three fold. The roads round here are narrow and not made to take the volume of traffic now increase this and there is going to be a lot of accidents. Keep taking away these green spaces is not good for health there is no parks near by only two small playing fields. The GP surgeries are full to busting and are having difficulty now seeing to patients and this was also happening pre pandemic. I think you should be looking into areas that have empty houses and rebuilding these areas.</p>
