Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	NA
Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	REDACTED TEXT. My Children have grown up with fields around the houses listening to the farm animals in the distance, it has been a great area to bring a small family up. Now my children are grown they both drive and we have had to dig up our front garden to accommodate their cars, This is on an estate that is built bigger than the average newer housing estate. We have created a 5 car drive. The newer estate are only 2 car drives, what happens when the new families grow and their children drive and there is no space to build extra parking outside their homes, the cars get parked all over the roads! Children now are not safe playing outside their homes. The volume of cars is now going to impact the morning and evening commuting which over the years has put 1 hour on my journey to work each day. The queue of a morning to get to the M60 can take 45mins to go 4miles this cant increase, the demand for schools and local services will all be greatly impacted with the increase of people in the area. The road network is at capacity already and you will create bottle necks
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	I understand we need homes, but not the volume when there has already been built 450+ in the last 2 years.
