Title	Our Vision
Type	Web
Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	I find the vision unacceptable brownfield sites should have been used instead of greenbelt in Bury the council has spent the last two years selling off these sites. I object to the building in walshaw greenbelt and elton reservoir it will add more congestion more pollution natural habitats and wildlife will be lost as we know we all need green spaces for our mental health which has been key in the pandemic. We will be ripping out the lungs of our environment
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Brownfield should be used in the centre of Bury which will generate much needed regeneration of areas close to the town centre as there is the metrolink and bus station it will allow new home owners to access transport thus less pollution

Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	As i said before to take away greenbelt is not acceptable brownfield should be used first the present infactructure will not support this it will lead to further congestion pollution the distruction of natural habitats for wildlife and take away our much valued green spaces for our own mental welfare

<p>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</p>	<p>we need to build on brownfield rather than the greenbelt not only is it a floodplain but it is the lungs of the area to add more congestion and pollution and take away the areas we walk and maintain our mental wellbeing is unacceptable</p>
<p>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</p>	<p>If brownfield is used in the more central areas of bury it will improve and regenerate areas which need upgrading and pollution congestion will not increase as the metrolink and bus station are already there</p>
