Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	The vision sets out to make GM one of the best places to be, it may be at present but the new plans will make that almost impossible due to overcrowding, lack of green accessible areas and little respect for the views of many.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	<p>Use more brownfield sites, look at the flooding problems at present, these will only increase with the destruction of fields, meadows and grasslands. Animal habitats will be destroyed.</p> <p>Affordable housing is almost always a dream that does not materialise as profit is the driving force in most of our society today.</p> <p>Public transport in most of the areas not adequate at present, how will this improve under more demands?</p> <p>People do not want to live in places where the infrastructure is inadequate; roads, hospitals, GP's and community services are overwhelmed with present demands, how will more demands be effective to a vision for a better place to live and work.</p> <p>Building on greenfield sites will not improve the effect of climate change but will more likely add to the problem.</p>

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	From previous meetings held over the past few years there has been many questions raised as to the validity of the figures used and the justifications for the plans. Public confidence in Governments and elected officials is at an all time low and it is frustrating and saddening when one's first thought is to question if one is being told the truth or not.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Transparency must be evident in discussions, plans and outcomes.

Please be as precise as possible.	<p>Some of the towns, in particular, Bury are not flourishing at present and have not been for at least 5 years. The introduction of the Rock led to a decline in the main centre of Bury, once a bustling and vibrant place for people to visit. This is no longer the case and further developments will only exacerbate the problem. The exorbitant car parking charges deter customers from shopping locally and lead to the use of retail parks which does not lend itself to a vision of being "the best place to live and work".</p> <p>The infrastructure is under pressure at present and will be made much worse if the present plans are implemented. A 2 mile trip can often take around 45 minutes due to the sheer volume of traffic on poorly maintained roads. Many places are frequently flooded due to previous building on greenbelt land.</p>

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	I do not believe any consideration has been given to the health effects of this plan. We need to protect and increase the green spaces. Bury is a popular place for people who want to reside due to the present green places, if the plan goes ahead then the majority of Bury will no longer be a healthy and green place to live. There are plans for Ramsbottom to maintain their green spaces, the roads to Ramsbottom are the most congested in the borough affecting residents of Brandlesholme, Tottington, Walshaw, Elton and many more. How will this be healthier for residents of Bury. Profit is being out ahead of community.

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	Road traffic accidents already at a very high level and increasing year on year will become an unacceptable level for community wellbeing and health. The upkeep, maintenance and costs are not at acceptable levels, increased numbers will ultimately lead to poor usage, poor mental health and more accidents.

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	The air quality, health and heritage of Walshaw will be destroyed by the proposed plans for roads and buildings. Walshaw already has a problem with flooding and poor road maintenance works. If the plans go ahead there will be very little to attract people to live in this area as all of the green places will no longer exist and once gone, will not be retrievable. The Government and GM appear to be paying lip service to the efforts made on climate change as all of this plan is guaranteed to have an adverse effect on children, adults and animals. There will be an increase in road traffic accidents due to the unsustainable level of people and traffic in the small streets of Walshaw. There is a huge problem with surface water on Walshaw streets and this is a serious problem for residents, further pressure will make this unmanageable.
