<p>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</p>	<p>There are 2 primary schools on church/ booth street both have poor parking and there is double parking all in front of christ church school. At the best of times this road is heavily congested, and is down too single file traffic, which turns this area into a heavily polluted area. When bury authority were looking at granting planing for linden close the access road was going between the house inquiry street. But bury authority traffic department said that booth street was all ready to congested and stopped that excess. So bury sold of part of a children"s play area to put a road through for access,now they want to put 3000 more cars on to a road they have all ready said was at heavily congested and pollute area. There is all so a plan to remove a wood to put a road through on to tottington road, this again would be a polluted black spot and would also cause more problems because Worthington road backs up to this spot from the lights on brandlesom raincoat days. And a road of the new estate would come out facing Elton high school causing a congested and pollute area in front of the zchoo!.</p>
<p>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</p>	<p>Build these new houses up brandlshom road were there is a lot better access on both side of the road, and a road system that can coup and still have fields to help with air quality</p>
