Nor is it consistent with sustainable development & NPPF Chapter 13. The site is not justified, not positively prepared and is inconsistent with national policy. There are no exceptional circumstances to build on this area of green belt land. There are many brownfield sites in Rochdale which would be better to be redeveloped. The effects of the pandemic on businesses means that more sites are likely to become available which will be more suitable. New housing would be more useful closer to the town centre. Traffic

Nor is it consistent with sustainable development & NPPF Chapter 13. The site is not justified, not positively prepared and is inconsistent with national policy. There are no exceptional circumstances to build on this area of green belt land. There are many brownfield sites in Rochdale which would be better to be redeveloped. The effects of the pandemic on businesses means that more sites are likely to become available which will be more suitable. New housing would be more useful closer to the town centre. Traffic This site doesn't comply withPfE Objective 7 and is inconsistent with adapting to climate change ,moving to a low carbon economy & NPPF Chapters 2 (para8) & 9. This site is not justified & is inconsistent with national policy. These plans will mean a huge increase in traffic in an already congested area and on roads which were not built to carry so much traffic. The only way to reach a train, tram or bus station will mean driving to them which will also impact badly on the air quality in the area.

This site is not justified ¬ consistent with national policy.

Places for Everyone Representation 2021

So many new homes inevitably means an increase in the the number of children but there is no proposal to build new schools in this plan and the existing schools are always full.

Flooding.

This site fails to comply with PfE Objective 2 & is inconsistent with NPPF Chapter 14.

This site is not justified, not effective & not consistent with national policy Anyone who lives in this area is aware of the constant flooding risk with land that remains wet even in a dry spell. This area has clay soil and countless springs run through it. If these fields are built on the flood risk will be even greater than at present because so many trees and hedges will be removed which at the moment soak away a lot of the water.

Redacted modification
- Please set out the
modification(s) you
consider necessary to
make this section of the
plan legally compliant
and sound, in respect
of any legal compliance
or soundness matters
you have identified
above.

I consider that JPA 19 Bamford / Norden should be removed from the PfE
