Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I am a key worker and also shift worker and travel daily to Manchester Airport at different times of the day. Normally rush hour was restricted to approximately 2 hours in the early morning and late afternoon. Im regularly stuck in traffic on main roads and the motorway at 11am, 12pm, 1pm and 2pm, even after this time. The rush hour traffic is a permanent fixture all day now.</p> <p>I am also a single parent who has a child in primary school, and i have to also drive to the school due to the distance from my house. In 2016 when i applied for his primary school, none of my choices were available due to all the schools being full. I was given a list of schools and the only one with places was 24th on the list.</p> <p>The extra housing you propose to place in the local area will add pressure to the already increasing population in the area. No extra schools are being built, no extra road reliefs are being built but we are expected to carry on with these issues with an extra 1100 homes and people in these homes to accommodate in all areas.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	<p>Clean up, refurbish and advertise empty and derelict houses and flats in the area. These properties are empty and have been empty for long periods of time.</p> <p>These properties need to be fixed up and accommodated. It saves extra housing being built, roads being dug up to lay new electricity wires, and also saves land being built on.</p>
