Adding small areas which are within a town and designating them Green Belt is purposefully done to reduce the overall percentage use of green belt land.</p> <p>Designating areas which are within a town don't comply with the stated aims of Green Belt land eg : Green Belt land serves a specific purpose - it helps separate our towns and cities to prevent them merging into one big urban area</p> <p>Green Belt land is on the outside of towns, not within them.</p>
<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	Don't designate small areas of land within a town as green belt. Is doesn't fit with the ethos of green belt land, which is to keep towns separate.
