Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	There is significant amount of brownfield site that could be used for this project. I am not against building houses, I am against taking away what makes the area, taking away clean safe spaces with over development. The infrastructure we have now is a disgrace, that will not get better with these plans. There is constant flooding as of poor planning, no services for the community, as what is there is already at capacity, you cant travel as of the poorly thought out routes for public transport, adding to the pollution, taking all our greenspace adds to this. Your saying add a new stop to.an already oversubscribed bus service. I have to travel atn6.30am to get a seat into Manchester, coming back is laughable. That is not a solution to making it accessible. These plans do not address these issues. There is habitats that will be destroyed where they don't need to, there is enough brown site. We have been promised improvements from other developments and have seen nothing. No logical thought has gone into these plans
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	<p>Transport infrastructure</p> <p>Better roads</p> <p>Better community services</p> <p>Re evaluate the brown field sites</p> <p>More thought for the environment</p> <p>More thought for wildlife</p> <p>Scale down</p> <p>Think about the fact that services are already over subscribed, providing 1 more isn't going to do anything.</p>
