Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	Lack of local consultation. Limited leafleting and information for local residents. Lack of consideration for the biodiversity identified. Poor plans for relocation will no doubt lead to a loss of valuable wildlife.

<p>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</p>	<p>Stop the plans altogether. Enough brownfield sites have been identified to provide the housing required.</p> <p>Only 60% of residents work in the borough. Therefore the road congestion and pollution will be adding to a poor environmental record.</p> <p>Lack of realistic use of brownfield sites and empty properties.</p> <p>No secondary school provision when the local school is oversubscribed.</p> <p>No additional GP surgeries or dentists. Again there are limited places available for these services currently without the influx of thousands of other people.</p> <p>Compulsory purchase orders despite saying these would not be used. Local residents do not want to be moved from their homes.</p> <p>The destruction of local habitats where endangered species live - bats, newts etc. These species will not respond well to being moved.</p> <p>Tameside has limited green space and the reduction in green spaces will no doubt increase pollution and reduce mental and physical well-being. More stresses in the NHS.</p>
