Please be as precise as possible.</b>	The plan is for Greater Manchester. In view of its vast size, differing land types and the huge numbers of various population types this plan will not work. This One size fits all approach will fail to meet the aspirations of all but the elite few who can afford its recommendations
<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	<p>You have to have peoples panels involved in all large building decisions where communities are at risk. They must be local residents - not planning committees or council staff of any kind.</p> <p>There must be an equal number of people who would be willing and brave enough to say no to the planners. Teams of yes men will only go against public opinion.</p>

There are enough local areas struggling to reach even the lowest air quality measurements, let alone those failing miserably in view of proximity to local motorways. Busy roads with traffic congestion are a daily curse and the future loss of green spaces/development outlined will make this so bad as to be unbearable.
<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	Full and accurate measurements of existing air pollution levels against expected levels. Full and accurate population modelling. Full and accurate modelling of local services to ensure these vast numbers of expected new residents and workers are catered for - bearing in mind the effects of Brexit and Covid on the workforce from now on.
