How on earth are they going to police and control these developments in line with nice new policy when already taken the cash? They can't even ensure street lighting and parking is up to scratch under current planning. Developments are already flying up with little or no respect to local opposition.

This is completely pointless if you are going to destroy exiting green spaces to counter balance the nice new areas! Think about it? Net gain? Net destruction? It takes years to rasa Lisa woodlands and greenbelt flora and fauna! Greenbelt is sacrosanct! I agree we need more greenbelt protection!

Please be as precise as possible.	<p>Plan has not previously considered local people and local needs. While the ideas and sentiments of improving work, transport, housing and infrastructure are great this plan does not address what greater Manchester needs. It simply is a grand idea with no thought for locality. Destroying greenbelt and planting few trees to counter act this is environmental suicide! Flooding, more traffic congestion's, air pollution,less facilities will be net result of this grand idea. Local jobs for local people is a myth! Ask the people currently working on local developments how many work within easy public transport? Have they trained at local colleges? Most likely not. Why do local planners and politicians seem to be affordable housing? Where do local people work? What do local people want to see in their local areas? Try a listening programme before revising your plans as local people are opposed to the manner I which you great ideas will be achieved. That fact that one council has already pulled out tells me that others will follow when they listen to their communities!</p>
