Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	The roads and schools are completely unacceptable in this area as it is. The traffic is a joke and the through roads like mort lane are awful. The provision of health is terrible but there is the health proposal for the part bridge site but this may only cover off the current areas that are under served not another 1000+ houses. The guided busway is great but already overcrowded. The green area is getting reduced significantly rather than spacing it out. There is no parks or spaces for families to gather safely.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	If these houses are built there should be no through roads onto Mosley common road, and additional roads and works need to be done in that area already. More frequent busses, many more schools being built. Better healthcare for the residents. I can't get a dentist and I've been here 2 years!
