Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	With respect to Bury I cannot see how building so many houses miles from the existing town centre, supermarkets and transport hubs can possibly be justified as being sustainable. Bury Bridge is a nightmare especially during peak times and with a further 2000+ cars which the proposals will generate pollution and congestion will increase. This is unsustainable, against the clean air policies and just plain nonsense.

Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	In Bury I question the population figures used to justify the housing needs. I am also informed that there are enough brownfield sites available to meet Bury's needs.

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	For Bury building so many houses so far from the transport hubs and supermarkets will generate much more pollution, therefore the proposals for Bury are not sustainable.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Build what houses are really needed closer to the town centre and transport hubs.

Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	Additional housing will generate additional cars and therefore additional pollution. Let's find a means whereby we reduce the need for people to have to use their cars to get to work, school or the shops. Building unnecessary houses so far from town centre cannot be justified under the clean air initiatives.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Build necessary accommodation closer to town centres etc
