<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	I moved to Lowton 15 years ago because of the clean air and the rural aspect allowing walking from home. Since then the number of houses built has caused congestion and pollution which has affected my asthma considerably. The roads have not been increased to cope with the increase in traffic nor has any of the services and we must now have the worst water in the North West. Not one of the proposers live in the area or have any idea as to the requirements - they are only interested in profit. The government wanted starter homes, none of my grandchildren could afford the properties being built.

## Places for Everyone Representation 2021

Wild life, vegetation is being ruined and walking is becoming impossible without taking your life in your hands or suffering from the polluted air. Enough is enough more thought should be given to the environment and environmental issues
