Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	Having lived in Mosley Common all my life the area has been flooded with new builds. There are no additional school, doctors or transport links proposed in order to accommodate any further housing. The residents are being horrendously let down and the council are failing in its duty of care. The traffic is horrendous and will only get worse as more vehicles travel through the area and all the green space is gone. There are no adequate crossing facilities on either junction of the A580 where children routinely cross for schools and yet both the Astley and Ellenbrook junctions have crossings. The children of Boothstown and Mosley Common are being put under further risk by increasing traffic. The area cannot sustain this amount of new housing with out serious investment in the local resources.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Better roads, crossings, schools and GPs.
