Title	JPA 35: North of Mosley Common
Type	Web
Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	NA
Soundness - Effective?	NA
Compliance - Legally compliant?	NA
Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>Traffic is already a massive issue and the road leading into Mosley common is already at full capacity. Having to now wait in traffic in a morning is terrible. With the possibility of 1100 more cars this becomes unsustainable. The increase in pollution will have a great effect on peoples health and well being, not to mention the extra noise of cars and building works.</p> <p>Building 1100 houses produces a mass amount of carbon dioxide, thus having a catastrophic effect on the environment. Has this not been considered?</p> <p>Amenities are already an issue. This proposal will put a massive strain on existing amenities so what is proposed for this?</p> <p>I have lived at my property REDACTED TEXT. Have views at the back and the side of my house which is all green belt land and was told by Wigan council in the day that this would never be built on. We enjoy the views and the nature that comes with it. This would all be destroyed. My children have grown up here, my friends are here. This proposal makes me sick and makes me want to move if this is to go ahead. If houses were built at the back and side of me, I would be able to see directly into these properties because I am high up. There would be no privacy for them or me.</p> <p>There has also been a massive lack of consultation. Only 1 notice on a lamppost was posted on my estate. This is absolutely diabolic communication. I strongly oppose the proposal of these builds.</p>
