Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>Worsley has one of the worst traffic issues in the north west, it cannot support any more housing development leading to more traffic building up. I am extremely concerned about the quality of the air - pollution from standing traffic, moving traffic from the east lancs road, the motorway traffic, Worsley roundabout. My grown up daughter is asthmatic and had to stop walking round Worsley area to work due to the adverse effect it had on her breathing. She and I are now worried for her children and what is happening to their health. At times the traffic is gridlocked and travelling times for short journeys are shocking.</p> <p>Furthermore there is a lack of infrastructure already in place - doctors, dentists oversubscribed in local area already, where will extra people be placed?</p> <p>Why do we have to lose so much of our green belt areas, our places of sanctuary to be enjoyed and explored as an escape fRom our already over built area.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	The whole scheme needs to be scrapped - there are too many houses and too much traffic already. People's health will be compromised
