Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>After looking at the National Planning Policy Frameworks (NPPF), I consider JPA 31 not to be legally compliant, unsound and fails to comply with the duty to co-operate. Not only that, but it has brought the following questions to my attention, which I'd like answered:</p> <p>Re. Postively prepared?</p> <p>Does "Place For Everyone" meet the area"s needs?</p> <p>Does it include all aspects of the area"s requirements?</p> <p>Will the plan really create a sustainable community?</p> <p>Re. Justified?</p> <p>Is the strategy actually appropriate?</p> <p>What alternatives have been taken into account?</p> <p>Is it supported by all the evidence needed, and if so, how?</p> <p>Re. Consistent with national policy?</p> <p>Will the proposals avoid damage to the environment and the climate, and allow the quality of life for future generations, to be maintained, and if so, how?</p> <p>Do the proposals mitigate and adapt to climate change, and if so, how?</p> <p>Re. Effective?</p> <p>Can the proposals be achieved within the plan timescale, and if so, how?</p> <p>What factors will prevent the proposals from being achieved?</p> <p>Re. Legally compliant? / In accordance with the Duty to Cooperate?</p> <p>Was consultation on the plan carried out in accordance with Statement of Community Involvement, for the nine local authorities involved in P4E?</p>

How and when have GMCA worked collaboratively with neighbouring authorities and prescribed bodies, on strategic and cross-boundary matters, known as the Duty to Cooperate?

How has the plan complied with all the relevant laws, including the Planning and Compulsory Purchase Act 2004, and the Town and Country Planning (Local Planning) (England) Regulations 2012?

What policies have local planning authorities included in their Local Plan, to tackle climate change and its impacts?
