Title	JPA 35: North of Mosley Common
Type	Web
Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	NA
Soundness - Effective?	NA
Compliance - Legally compliant?	NA
Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I live in this area and recently moved from nearby Astley, I have lived around the area in general for over 5 years, I have seen the traffic congestion which is getting worse on Mosley Common Road. With the new build already built/being built, this has further added to the congestion, particularly with the house prices majority of people work on these estates so travel to their jobs from this road. There is one road practically from Mosley Common to Tyldesley/Little Hulton without going through Astley.</p> <p>The primary school Garrett Hall has been overcapacity for some years, more houses will further add to the over capacity schools within the area.</p> <p>I understand there is being built some units which will have a doctors and unsure what else is being placed near the new Lidl, already you can see the traffic building up around this area.</p> <p>The new builds have already been built on farmland on the Redrow site and now it looks like a completely new area to how it use to be. Some would say an eye sore from the top of Mosley Common Road.</p> <p>I live near the fields near Honksbrook and feel the wildlife with ducks and wild birds would be affected if further development would begin on this area. Members of the public will have no were to walk their dogs or walk in general without congestion or over population being obvious. The fields with the Redrow site have already taken the homes of these birds/wildlife.</p> <p>I don't feel the infrastructure can accommodate already to the ever growing population around this area. Members of the public dont want to feel stressed driving from one area to another with the poor infrastructure and over population already showing.</p> <p>I don't agree with the development being proposed.</p>
