Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>We have lived in Mosley Common for 30 and never have we seen so many cars stuck in traffic on Mosley common Road as there is at the minute. The cars are pumping out emissions and the air quality is shocking. REDACTED TEXT and we escort them every where as the road is not safe due to the traffic and people cutting through the estate where we live. My daughters house and mine are covered in sand like dust which when wet turns into cement making it a daily chore of cleaning outside. The large lorries are cutting through to the distribution centre at Little Hulton causing more traffic to get stuck on the main road. We are having to leave for work at 5.30 to make it for a 7 o'clock start as there is already a great amount of traffic between us and the m60 motorway. To build more houses in Mosley Common and Leigh Road would cause more emissions and traffic queues to an already over burdened road. The infrastructure in this area cannot cope with the amount of traffic now never mind another 2000 houses with the possibility of 4000 cars.</p> <p>The estate I live on is a disgrace now with pot holes in most roads and the pavements look like a seaside resort with amount of sand and debris from the amount of traffic especially builders wagons transporting sand cement and other building materials to the surrounding building sites which is another cause for concern as this dust is in the air giving us breathing difficulties.</p> <p>Wigan council cannot keep our roads and pavements to a reasonable standard now so how will they manage with all these new houses. It is a regular occurrence that our bins are not emptied on the specified days as the wagons go over weight with all the houses in the area. We are then left waiting for the bin men to decide to come back. The bins are left on the road and as we only get them emptied every 2 or 3 weeks now means they are left for another week leading to cats or rats eating out of the bins leaving rubbish on the pavements which leads to more rubbish removing for the residents.</p>

Places for Everyone Representation 2021

	<p>We walk on the busway and local roads as we are quite active but with a lack of open spaces to walk will affect our mental health and well being. Our grandchildren ride bikes or scooters around the bus lane and surrounding public pathways through the fields you are planning to build on so where do we take when the houses are built as we will no open spaces left in this area as Wigan council keep giving planning permission with no thought to the local residents. Since Lidl and the new house have been we keep getting Honksford Brook on the warning list for flooding and a man hole next to Lidl has already come off twice pouring water over Mosley Common Road as there is nowhere for the water to go as everywhere has been concreted over so with more house on the only bit of soft land for the water to drain into there is no doubt going to be more flooding in the area as this is something we have never experienced before all these new house where built.</p> <p>We have to go out before 7 o'clock or after 4 o'clock due to the amount of traffic on the roads now so with these new houses we will become limited to times when we can go out without being stuck in traffic jams which means we will be restricted to working hours or leisure activities.</p>
