Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	The hypocrisy of council and central government is off the charts when it comes to the Environment. We were promised by all political parties they would not build on greenbelt land but in this area wigan, salford and bolton councils have decimated this area of greenbelt with development. Adding more pollution and traffic chaos to already bad situation is not my idea of progress either for getting to work, health and the environment. Climate change is not just about replacing fossil fuels and protecting the rainforest on the other side of the world it's also about protecting our countryside from destruction. We have need for so many houses now because we have had so much immigration over the last 20 years by Tory & labour governments and we still have open borders. All our towns in this area are joining up because of development the result is going to be a hell hole the council & government will be responsible I rest my case
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Stop the development end of
