Title	JPA 35: North of Mosley Common
Type	Web
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I have concerns that the North of Mosley Common site is a large area of Green Belt, Mosley Common has been saturated by development over the last 5 years, this has caused an increase in population in a small area with no added infrastructure to the road network and this will cause even more grid lock. The roads are not built for the excess of building development as it now stands and this will only add to excessive traffic and pollution.</p> <p>This will cause even more traffic back log on to the A580 and surrounding roads which has been already ben highlighted as a congestion problem.</p> <p>There isn't a detailed plan as to how to alleviate the traffic problems which are ongoing.</p> <p>We need a plan for a good reliable, frequent and consistent public transport network. There isn't a detailed plan in place at the moment to alleviate the traffic problems.</p> <p>Mort Lane already suffers with excessive amounts of HGV's due to the Logistic North's development and lack of traffic management which causes a lot of distress to the residents, The lack of accessible footpaths and crossing points due to the railway bridge.</p> <p>There's also a lack of health and school provisions in the area which will again saturate the already struggling health provisions and lack of school places.</p>
