Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I have serious concerns with the plan for Trafford in particular. The proposals to build a road through and build houses on Carrington Moss is seriously wrong. The Moss is full of peat and many trees and shrubs which all play their part in keeping our air safe. You cannot open a newspaper without being told the value of trees and that we need many more and green spaces too for our physical and mental health.</p> <p>Surely as we are finding that more and more people are working from home, this will create empty buildings that could be converted for residential use. We also have many brownfield sites and areas that should be used before we even consider green field sites - it seems to be the easy action is to invade green spaces, never might the impact on the environment and the effect upon our health and what about the wildlife which will no longer have homes/become extinct. What a poorly thought out plan.</p> <p>Have you considered the effect all these plans will have on schools, there are no places in the Sale area for residents, Dentists have waiting lists for you to join their practices and Doctors appear not to be able to support their existing patients so there is also the knock on effect upon our hospital both as outpatients and emergencies.</p> <p>I appreciate that Covid has had a disastrous effect upon the World and changed many things. Can we at least delay the consideration to use Carrington Moss until we can see the business/ housing requirement in Trafford and then can we consult again. What an outright sin it would be to destroy the Moss without any need.</p>
