Soundness - Positively prepared?	Sound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	Yes
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	There has been intense building in the Lost on area adjacent to the A580. However there has been no improvement in the infrastructure of the A roads around the area and no new access points to the A580. This has placed an additional burden on the existing road infrastructure, which is almost as breaking point, especially at peak hours. This this causes issues with noise pollution and air pollution.

Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.

Brownfield sites should be considered away from existing high density housing, where new road infrastructures can be built. This will take the strain off existing roads, especially those around the A580 in London.
