<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	By allowing developers to build houses that are using cheap materials that are environmentally damaging and costed to make maximum profit and extortionate ground rents following construction, seems unfair to new homeowners. New houses increases traffic that pollutes air even more. Develop public transport and facilities before exploiting communities by stretching existing facilities to the maximum without using additional council taxes generated locally back into that community. Using previously designated greenfield sites destroys access to nature which would allow me and my children to be healthy in GM. Also it doesn't seem like a duty to cooperate with residents but a duty to cooperate with business that takes priority. What about making each house carbon neutral (solar panels wind turbines) and making sure that all houses are free hold?
<b>Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.</b>	By not allowing developers the opportunity to overturn land that was previously designated green belt another opportunity because they have bought up land in vast swathes. Because they are greedy and think that the rules do not apply to them and their investment will pay off. Why not allow the land to be used for the communities rather than fenced off? Increasing our access to areas with better air quality and closer to nature.

A more equitable and transparent approach to land ownership from outside of Greater Manchester needs to be considered as it is exploitative and takes opportunity away from local people and businesses.

But with increased ground rents and high band council tax payments due to the areas current demographics and current infrastructure. Developers will continue to exploit these areas rather than develop area where the returns are less due to house prices. Also the new homes do not come with any additional renewable energy or electric boilers and building practices still use cheap carbon impacting materials rather than more expensive carbon neutral materials because it eats into profit. <b>Compliance - In accordance with the Duty to Cooperate?</b>	Yes
<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	Please protect them if they were greenfield before what has changed since the last consultation to change this. The only pressure will come from developers who bought up green belt land who want a return on their investment.
