Please be as precise as possible.	I believe exceptional circumstances have not been shown to warrant the loss of greenbelt. The infrastructure has shown its not fit for purpose for a development of this scale. This area has been a lifesaver for many during covid. It had been a great help for people to exercise on their doorsteps and been invaluable for mental and physical wellbeing. Its used all year round. Ive attached photo"s in winter to show that people use it in all weather and would be a travesty if it was built on. Boris Johnson said greenbelt was sacrosanct so it will be nice to see if that statement is true!!
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	This allocation should remain greenbelt and be taken out of the plan!

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	Swapping and changing greenbelt is not why greenbelt was brought in . Its not there to swap and change as it suits. This particular allocation was subject to a chemical explosion back in the 80"s i believe □ but is now being proposed as "new"greenbelt □ when its highly unlikely to be built in anyway due to the contamination of the land!! Why are these pockets of land not being built on if they are not greenbelt? Because in some way shape or form they are probably not suitable and we are being fobbed off with "new"greenbelt as a ploy. How does "new"greenbelt in Carrbrook help the people and wildlife of Hyde □ it doesn"t.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	This should be removed and current greenbelt allocations remain the same!
