Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>The infrastructure in the area can not cope with more traffic.</p> <p>From the junction at the M60 backs up to the Denton junction, traffic on droylsden road backs up to the snipe, traffic in lord sheldon way backs up.</p> <p>Anyone employed here would commute in causing more traffic and pollution.</p> <p>There are two housing developments going on nearby which will also contribute to the traffic.</p> <p>There is already many entertainment, eating facilities and shopping on lord sheldon way and the snipe so no additional needed. Office space shouldn't be required as there are already nearby empty office spaces to hire or older spaces that could be redeveloped.</p> <p>This whole area should be reserved as green space to help combat the pollution of the already heavy traffic and proximity to the motorway</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	<p>This whole area should be reserved as green space to help combat the pollution of the already heavy traffic and proximity to the motorway</p> <p>The proposal should be sent directly to all houses within a 3k radius to allow full local feedback, speaking with neighbours they are not aware of this proposal despite the proximity to our houses and the impact on local traffic and pollution</p>
