Please be as precise as possible.	<p>The plan fails on so many levels - clean air, stress free journeys are the ones that jump out! Roads around Bury are so busy already, with pinch points around junction 17 of the M62 for example and also around the Elton, Walshaw area!</p> <p>The congestion in these areas will be made much worse if the proposals go ahead, leading to a reduction in air quality and an increase in stress for anyone using those routes</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	<p>We need a rethink on siting of housing developments, using brownfield sites first. Keeping developments close to transport hubs. Alongside this, the transport networks need to improve their capacity and reduce their charges, to persuade people to use them.</p> <p>We need to prioritise protecting and improving access to our existing open spaces. They are vital to our health and well being.</p>

It talks about using brownfield sites, while the Bury plan is all about using greenbelt land, land in areas already struggling with traffic and areas where flooding is a constant threat! Really poor

Rethink the number of houses needed. Aim them at first time buyers - affordable! Also needed are supported housing projects for the elderly. We do not need more 4 and 5 bedroomed houses built on our greenbelt

Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	This area is already one of the most congested motorway junctions in the country with the poor air quality that comes from that. The industrial sites around this area have many empty units already without more being built.

Please be as precise as possible.	I feel that Bury Council are being deliberately short sighted in their plans. They will not improve life, air quality, road congestion or general living standards for any of the residents in the areas targeted. It is truly appalling
