Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	No
Compliance - In accordance with the Duty to Cooperate?	No
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I have lived in this area of over 7 years and decided to locate because of the many green areas and the clean area it provided for me as an asthmatic. In those 7 years there have been constant proposals to build on green areas and spoil the landscape, there have been so many new houses built in this time it has clogged up roads and caused huge amounts of noise and air pollution. The additional traffic has caused havoc not only to residents but also for children who were able to cross roads but now have speeding vehicles and traffic at all times of the day. Adding further properties to this area, whether that be 1 house or 1,100 houses causes massive disruption, even more air pollution and more noise due to traffic and congestion. We currently do not have enough amenities in this area nor the infrastructure to cope with more people living on our beautiful green land <input type="checkbox"/> nor can I see how the road networks can be improved to reduce congestion.</p> <p>This is a country aiming to be more sustainable with a focus on green impact, how can we meet those requirements and be constantly building new houses (which I will add are not what I would call affordable homes) on green land. Killing natural habit and the animals and creatures that have always lived there. The focus is clearly on money.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	The modification would be to change the plan and improve the green areas so that those currently living in the area can enjoy the outdoors and everything it brings - not build more property.
