Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	Yes
Compliance - In accordance with the Duty to Cooperate?	Yes
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	If the proposed number of house builds goes ahead this will potentially mean over 800 additional cars causing additional and significant pollution not to mention the proposal for a one way system which could increase the amount of traffic using our road as a cut through. I don't believe this proposal complies with PfE objective 7 and is not consistent with adapting to climate change. More houses equals more waste, more cars and more pollution not to mention destroying the free and open space we use for walking ourselves and our dog.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	My suggestion would be to build on the plenty of brown field sites in the area and not destroy the green belt that provides a home to many species of wildlife, space for our children to play on and lush fields and views for families to enjoy.
