Please be as precise as possible. | <p>With an employment density of 0.6, the borough of Tameside is second worse in Greater Manchester. One result of this is commuting load on roads and railway can only increase. Anybody currently commuting will know the Glossop Manchester line is at capacity already. Several reports indicate that their is no room for capacity increase. Platforms are extended to their limit and extra trains are not possible.</p> <p>Whilst the proposed Mottram bypass may fix one end of the M67, the Denton end will only be more congested. In addition are planed changes proposed for the A628. These may actually increase cross pennine M67 traffic.</p> <p>Godley by virtue of its eastern extended boundary is second most deprived area in Tameside. The proposed development may change statistics but it does so without lifting anybody out of poverty.</p> |

| | |
|---|--|
| | <p>Life expectancy in the borough is much lower than national average, the last thing we need is more standing traffic in the ward and borough. Its not just exhaust fumes, particulate pollution will get worse. The proposed development space is still required for what it is doing naturally. That is a real green space is required to help combat pollution, it also helps people's mental health.</p> <p>The borough's hospital already struggles, the extra people will make it worse. Anybody who lives in and knows the area knows about the crime and unsocial behaviour. Is building aspirational villages next to a deprived area going to reduce crime levels. Is building a bridge to join the two going to serve as an escape route. Is the mingling of old lanes and footpaths and new development going to be a charter for thieves. (Ask anybody who has a public footpath at the back of their property.)</p> <p>Redevelopment of Hyde Town Centre. What is proposed to actually encourage these new affluent house holders to spend money in Hyde? At the moment they would add to the towns traffic as they drive off somewhere else.</p> |
