<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	<p>I have lived here for over 60 years. I have seen the area change for the better but more recently I have seen a major loss of open spaces. We REDACTED TEXT have many many birds nesting in the established trees and hedgerows. Ground level birds use the open grass spaces for feeding and nesting. Owls and birds of prey hunt in the open fields facing lower new row. People love to walk here and enjoy the open landscape. Please don't take all the fields, they are the lungs we need. For our mental well-being we need open spaces.</p> <p>I believe the effect of yet another large building programme would have terrible and irreversible effects for the birds and the animals that live here. Just because they don't have a voice does not mean they can be ignored.</p>
