Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I feel that this development is far too large it almost seems to be size of a small town. This is going to be built on green belt when green belt land is supposed to be saved, but not in this case, The area is full of wild life and is also full of springs and very boggy hence the district called Watersheddings (water outlet). The impact of cars etc will spill over onto already overcrowded roads in the area, I don't think you will get people to give up their cars so a non starter there. and where will all the children go? the schools are already overflowing. What about doctors and other health welfare need. You have difficulty now getting appointments etc. How many more people will have to be accommodated there?</p> <p>You are removing an asset that the local people enjoy. No wonder there is a high level of stress. You are not considering the local people, how many of these so called planers live in the area ,not many if any so it doesn't matter to them. I'm alright Jack springs to mind.</p> <p>Why hasn't a form gone out to the local people is it because you will find that the majority will be against the proposals not every one has access to a computer to look at this booklet.This is not fair on the population of the area of concern and does not seem to cover the cooperation that this section covers.</p>

Unless they have been notified about this consultation and given chance to make their views known it is a very one sided proposal and far from democratic ,which this country is usually very good at. But not in this case. Is it no wonder things get steamed rolled through when people don't have a say . What a shameful state of affairs this has become.
