Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	Yes
Compliance - In accordance with the Duty to Cooperate?	Yes
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	I am not giving specific details as this is obviously a "done deal". I recently walked on our precious green belt land and observed men using a theodolite. A few days later I again walked through our green pastures and noticed wooden stakes where the men had previously been working. It is SO obvious that these markings are for one purpose only - building!! It is also obvious that the decision makers do NOT know this area, do NOT care about the restrictions for building on green belt land and do NOT have any scruples whatsoever about the disruption, heartache, anger, frustration and a hundred other adjectives about the beautiful area in which I/we live. Why do people not care or have feelings any more in this world? The world of Bamford & Norden is being turned upside down for one reason only - MONEY!!!!
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	This plan is totally unnecessary and needs to be scrapped, however much it has cost so far. What a waste of time, and money. I guess it's given jobs to many people who earn exorbitant salaries.
