Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>The roads in the area are already grid locked most mornings and evenings - even the slightest disruption brings traffic in the whole area to a standstill. The junction of Mosley Common with the East Lancs (A580) is already at capacity and there are no proposals to improve this.</p> <p>There is a lack of local facilities - which are already overstretched. Mosley Common is/was a lovely area with its own identity and will be swallowed up to become just another built up area.</p> <p>We have already endured the disruption of recent building works with resultant dirty roads, disruption and general nuisance. Health - both physical and mental -has already suffered and will be exacerbated 10 fold if these proposals come to fruition.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	The only modification acceptable, reasonable and justified is the complete rejection of this proposal - we have had enough already.
