Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>The area certainly does not have the capability to cope with hundreds, possibly thousands of extra vehicles, particularly on the ill thought out proposed routes in and out of the site. Thornham new road is a single file narrow road due to residential parking and only just copes with the small amount of vehicles passing as it stands.</p> <p>The proposed site will also take away a fantastic leisure and recreational area that a large number of people use on a daily basis whether it be for exercise, dog walking, photography etc.</p> <p>There is also a vast amount of wildlife that live on the greenbelt area that seems to be overlooked without a single thought or mention.</p> <p>On a personal note and I'm sure I speak for the majority of local residents, the building of such proposal would cause massive disruption in an area we choose to live and invest in.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Look for a more suitable and feasible development site
