Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I did not check three of the questions, as the document would not allow me to do so, but we consider the strategic objectives and all Policies in the Plan to be sound for the following reasons:</p> <ul style="list-style-type: none"> -They maximise the use of brownfield sites for redevelopment and protect green belt. -The intention is to provide good quality affordable homes in the right areas to meet housing need across all age groups. -Commitment to Carbon Reduction is welcomed. -There is a commitment to a significant increase in tree planting. -There is an intention to maximise opportunities for good quality employment.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	<p>However, the Parish Council are also of the view that:</p> <ul style="list-style-type: none"> -Provision of financial support for households to switch from gas boilers is required. Retro fitting grants for all energy conservation works are essential. -Removal of microplastics from the environment must be a priority -All new build properties including industrial units should have solar panels and heat pumps integrated within construction. -Wigan should not just be a low wage warehousing hub. Skilled jobs should be distributed across the County. -If quality employment is focused upon city centre areas, transport links must be effective and affordable. -Transport links between Southport, Wigan and Manchester should be improved, including the reinstatement of the Manchester Piccadilly/Manchester Airport direct link from Southport. -The Metrolink Tram system should be extended to Wigan. -The development of an Integrated Transport Network should be prioritised. -The M58/M61 Link Road should be developed to reduce congestion between Wigan and Leigh and beyond. -An equal fare pricing structure across bus and rail services should be developed with the use of an Oyster Card type payment facility. -There should be an improved network of electric car charging points.
